WHAT WE DO?

AzinTrade company is a reputed supplier of Cement, Clinker, Gypsum, Tile and Ceramic, Rebar, Coal and other building materials. We are able to supply primarily catering to the needs of the fast growing construction products and minerals industry all over the world.

The company has earned a reputation as a professional and reliable supply chain supplier to the cement and construction sector.

The company prides itself on its premium quality and bespoke customer service. We are independent, flexible, fast, and competitive.

The company supplied cement companies' needs and contractors, primarily in Asia, Africa, and Persian Gulf countries

With contracts with large Iranian companies in the field of tiles and ceramics, we have been able to provide a wide range of different designs of ceramic tiles and the best quality.

We have the ability to work mainly on CFR and FOB issues. The Company has more than 15 years of experience in Iran, which helps to understand the buyer and tailor solutions based on their needs
